

Pressure Transmitter 250 psi, 500 psi, 667 psi

Part Number: **TSA-HVAC**

### Description

TSA-HVAC series pressure transmitters sensors are designed for HVAC applications and for use with refrigerant and condensate. Supplied with 1m cable and plug.

### Dimensions

### Technical Specifications

Measuring Ranges:	250 psi , 500 psi, 667 psi (Gauge)
Overload Pressure:	2.0 x pressure range (3 x burst)
Ingress protection:	IP66
Accuracy :	$\pm 1.5\%$ FS
Process Connection:	7/16-20UNF 2B
Electrical Connection:	Packard Metri-Pack 150
Materials:	Brass
Temperature:	-35 ....105 °C medium
Signal Output:	0.5 - 4.5 V (2 wire) Standard (4-20mA on request)
Supply Voltage:	$5 \pm 0.5$ VDC
Shock Resistance:	20G
Warranty:	12 months

### Order Code

**TSA-HVAC-F1XX250PAAAX** : 250 psi; 7/16-20UNF 2B; Packard Metri-Ppack; 0.5 - 4.5VDC  
**TSA-HVAC-F1XX500PAAAX** : 500 psi; 7/16-20UNF 2B; Packard Metri-Ppack; 0.5 - 4.5VDC  
**TSA-HVAC-F1XX667PAAAX** : 667 psi; 7/16-20UNF 2B; Packard Metri-Ppack; 0.5 - 4.5VDC
